

# Vamsi Krishna Dasari

## Full-Stack PHP Developer

Email: vamsi.dasarik3@gmail.com

### Summary

Experienced Web Developer with 10+ years of expertise in PHP and 8+ years specializing in Laravel and CodeIgniter. Skilled in building SaaS platforms, CRMs, booking systems, and user-centric web applications.

Strong background in database architecture and optimized MySQL development, supported by certification as a Database Administrator. Proven ability to handle end-to-end project delivery, lead development teams, and design scalable, secure application structures.

Delivered impactful solutions for multiple startups and growing businesses, including ride-booking, dating, storage management, and pitch management platforms. Focused, reliable, and committed to building clean, high-performance web applications.

### Technical Skills

- **Languages & Frameworks:** PHP (5.6-8+), Laravel, CodeIgniter, JavaScript, jQuery
- **Databases:** MySQL, MongoDB, SQL
- **Frontend:** HTML, CSS, Bootstrap
- **Cloud & APIs:** AWS, RESTful APIs, Third-Party Integrations (Social Media, Payment Gateways)
- **Tools & Methodologies:** Git, Agile, Performance Optimization, Code Reviews

### Professional Experience

Team Lead | Osmosys Software Solutions | Hyderabad, India

01/2019 – 11/2020

- Led a team of 12 members, overseeing project architecture, task assignment, and code reviews to ensure project milestones were met on time.
- Architected and developed complex database structures to ensure efficient data management and scalability for large-scale applications.
- Fostered a collaborative environment by mentoring junior developers and implementing best practices for quality assurance.
- Managed the full project lifecycle, from initial development to deployment, CI/CD, and ongoing support.

Full-Stack Developer | DotcomWeavers Solutions Pvt Ltd | Hyderabad, India

03/2012 – 12/2019

- Designed and implemented database schemas for scalable applications, optimizing queries and performance for diverse projects.
- Utilized the CodeIgniter framework to develop end-to-end web applications with a focus on modular and reusable code.

- Developed dynamic PDF invoices with custom formatting and data integration for business applications.
- Integrated analytics tools to monitor application performance and user behavior, informing product decisions.

Full-Stack Developer | Kensium Solutions Pvt Ltd | Hyderabad, India

06/2010 – 02/2012

- Managed full-cycle WordPress development, including custom theme creation and plugin development to meet client specifications.
- Integrated third-party APIs for social networks and payment gateways, enhancing user engagement and business functionality.
- Conducted rigorous code reviews and enforced coding standards to ensure code quality and long-term maintainability.

## Notable Projects

- **Pitchfinder.io:** A SaaS platform for pitch management, featuring real-time collaboration, intuitive dashboards, and secure user data management.
- **Limoride.com:** Developed a comprehensive ride-booking CRM system, streamlining bookings, driver management, and secure payment integrations.
- **MagnoliaDates.com:** A Filipino dating platform with advanced messaging, matchmaking algorithms, and privacy controls to enhance user experience.
- **Stowsimple.com:** A storage management SaaS application with features like inventory tracking, automated notifications, and customizable reporting.
- **Netzero.com:** Contributed to sustainability-focused web tools, including data visualization for carbon tracking and user dashboards.
- **Om.kynobaby.com:** Developed an e-commerce platform with product catalogs, shopping carts, and personalized recommendations to boost sales.

## Certificates

- **Database Management:** Oracle Certified Professional (OCP) - Completed OCA and OCP certifications.

## Education

Master of Technology

Jawaharlal Nehru Technological University | Hyderabad, India

Graduated with a focus on computer science and engineering principles.
